

CAMBOURNE VILLAGE COLLEGE POLICY FOR THE INDUCTION OF EARLY CAREER TEACHERS	
Committee:	FGB
Accepted:	20/12/24
Review cycle	Annually
Responsible Officer:	Ali Hodgson (Assistant Principal)
Version	3

1. Rationale

Statutory induction is the bridge between initial teacher training and a career in teaching. It combines a structured programme of development, support and professional dialogue, underpinned by the [Early Career Framework](#), with monitoring and assessment of performance against the [Teachers' Standards](#).

The first two years of teaching are not only very demanding but also provide the foundations upon which a successful teaching career can be built. Our school's induction process supplements the school's wider new staff induction process and ensures that the Early Career teacher (ECT) is provided with appropriate guidance, support, training, development opportunities and monitoring and assessment through a structured but flexible individual programme.

2. Aims of this policy

- To ensure ECTs understand what they can expect from their induction.
- To run an induction programme that meets all of the statutory requirements.
- To support ECTs to build upon the knowledge, skills and understanding developed in initial teacher training, so that they are equipped with the tools to be an effective and successful teacher.
- To ensure that systematic and fair assessment procedures are in place.
- To ensure all staff understand their role within the induction process.

3. Legislation and statutory guidance

The policy is based on the DfE's [statutory guidance for induction](#) and Sections 135A, 135B and 141C(1)(b), of the Education Act 2002 and The Education (Induction Arrangements for School Teachers) (England) Regulations 2012.

4. The induction process

For full-time ECTs, the induction programme will take two academic years. Part-time ECTs will serve a full-time equivalent.

All ECTs are registered with Cambridgeshire ECT Induction Service, our 'Appropriate Body', who has the main quality assurance role for induction. The school will participate in any visits that the Appropriate Body initiates as part of its quality assurance procedures.

The school will ensure that ECTs, Induction Tutors, Mentors and the Headteacher are familiar with the ECT Induction Guidance handbook provided by the ECT Induction Service.

4.1 Suitable post for induction

The governing body must be satisfied that the institution has the capacity to support the ECT and that the headteacher/principal is fulfilling their responsibilities. Before we appoint an ECT, we ensure that the post to which they will be appointed meets the requirements for 'suitable post' as defined in the statutory guidance. The post must:

- provide the ECT with an Early Career Framework-based induction programme;
- provide the ECT with the necessary employment tasks, experience and support to enable them to demonstrate satisfactory performance against the Teachers' Standards throughout and by the end of the induction period;
- include the appointment of an induction tutor who is expected to hold QTS;
- include the appointment of a designated mentor who is expected to hold QTS;
- provide the ECT with a 10% reduced timetable in year 1 and a 5% reduced timetable in year 2 (in addition to PPA) to enable them to undertake activities in their induction programme;
- not make unreasonable demands upon the ECT;
- not normally demand teaching outside the age range and/or subject(s) for which the ECT has been employed to teach;
- not present the ECT, on a day-to-day basis, with discipline problems that are unreasonably demanding for the setting;
- involve the ECT regularly teaching the same class(es);
- involve similar planning, teaching and assessment processes to those in which other teachers working in similar substantive posts in the institution are engaged;
- not involve additional non-teaching responsibilities without the provision of appropriate preparation and support.

4.2 Support and professional development

ECTs will be inducted into the school as per the processes for all new staff. They will take part in all necessary procedures and staff training as detailed in the school's induction policy for new staff.

In addition, ECTs will be provided with:

- regular one to one mentoring sessions from a designated mentor who holds QTS and has the time and ability to carry out the role effectively. The mentor will support the ECT with the ECF professional development programme.
- support and guidance from a designated induction tutor who holds QTS and has the time and ability to carry out the role effectively. The induction tutor will monitor the ECT's progress against the Teachers' Standards.
- regular formative feedback on their teaching with verbal and written feedback provided against the Teachers' Standards (at least once per half term).
- professional reviews of progress (once per term) conducted by the induction tutor to set and review development targets against the Teachers' Standards.
- regular opportunities to observe experienced teachers in this school or in another school where appropriate.

ECTs will take part in a statutory professional development programme that supports them to understand and apply the knowledge and skills set out in the [Early Career Framework's](#) evidence statements and practice statements. The school provides this programme via the EDT delivered by the Cambridgeshire and Peterborough Teaching School Hub.

The school recognises that ECTs are individuals and will have varying strengths and needs as they develop. The school will ensure that in addition to the statutory Early Career Framework programme, ECTs will be provided with professional development opportunities and support specific to their evolving needs.

5. Roles and responsibilities

The following sections summarise the key purpose of each role within ECT induction. The ECT themselves must be proactive in their own development and take responsibility for engaging with the support that is offered throughout induction and participating fully with monitoring and assessment, in line with the statutory guidance. Our school will ensure that everyone with a formal role in the ECT induction process understands the full range of their responsibilities as set out within the statutory guidance by enabling them to attend training and ensuring that school processes and timetables enable these roles to be fulfilled.

5.1 Governing Board

The governing board will be aware of the contents of the statutory guidance for induction of ECTs and will ensure compliance. Governors should satisfy themselves that the school currently has the capacity to fulfil all its obligations to ECTs and appoints ECTs only to roles that are suitable for induction. The governing board can expect to be kept aware of ECTs' progress. They must investigate concerns raised by an ECT as part of the school's agreed grievance procedures.

5.2 Principal

The principal is, along with the appropriate body, jointly responsible for the monitoring, support and assessment of the ECT during induction, and is expected to:

- ensure that an appropriate ECF-based induction programme is in place;
- ensure that the mentor and the induction tutor have the ability and sufficient time to carry out their role effectively;
- in the case of an ECT considered to be not making satisfactory progress, ensure that areas for improvement have been correctly identified, appropriate objectives and support are in place and that the Appropriate Body (ECT Induction Service) is informed;
- participate in the Appropriate Body's quality assurance procedures;
- recommending to the Appropriate Body whether or not an ECT has performed satisfactorily against the Teachers' Standards for the completion of induction.

5.3 Induction Lead

Our induction lead Ali Hodgson helps ensure that our induction tutors and mentors are able to carry out their role. Where someone is taking on a role for the first time, they ensure they are aware of their responsibilities and the key milestones and processes throughout the year in good time to plan these activities efficiently. The induction lead internally reviews the termly progress reports and formal assessment reports for all ECTs and carries out some paired observations to moderate judgements across the school and ensure a consistent and appropriate view of expectations in relation to the Teachers' Standards at different stages of an ECT's induction. They are the first point of contact when an induction tutor has concerns about an ECT's progress.

5.4 Induction tutor

The induction tutor will attend training and update briefings provided by Cambridgeshire ECT Induction Service as necessary. The induction tutor is expected to:

- provide, or coordinate, guidance for the ECT's professional development (with the appropriate body where necessary);
- carry out half termly lesson observations and provide formative feedback (against the Teachers' Standards) with verbal and written feedback provided (at least once per half term).
- undertake two formal assessment meetings during the total induction period coordinating input from other colleagues as appropriate (normally one at the end of term three and one at the end of term six, or pro rata for part-time staff);
- carry out progress review meetings in terms where a formal assessment does not occur;
- inform the ECT following progress review and formal assessment meetings of their progress against the Teachers' Standards and share progress review records with the ECT, headteacher and Appropriate Body;

5.5 Mentor

The mentor is expected to have the necessary skills to fulfil the role. They should have attended/be attending appropriate mentor training. The mentor is expected to:

- regularly meet with the ECT for structured mentor sessions to provide effective targeted feedback and support with the ECF professional development programme;
- work collaboratively with the ECT and other colleagues involved in the ECT's induction within the same school to help ensure the ECT receives a high-quality ECF-based induction programme;
- provide, or broker, effective support, including phase or subject specific mentoring and coaching;
- take prompt, appropriate action if an ECT appears to be having difficulties.

6. Monitoring arrangements

ECTs will be kept fully up to date on their progress throughout the induction period.

The induction tutor will review the ECT's progress against the Teachers' Standards throughout the induction period, with a progress review meeting taking place in each term where a formal assessment is not scheduled. Progress reviews will be informed by existing evidence of the ECT's teaching. The progress review form will indicate whether the ECT is on track to meet the Teachers' Standards consistently by the end of induction and summarise briefly the evidence that supports the judgement. The form will be digitally signed and submitted to the Appropriate Body (via *the ECT Manager website*) by the end of the term it is due.

At the end of year 1 and the end of year 2, a formal assessment meeting will be carried out by the induction tutor (and/or the headteacher). This meeting will be informed by evidence gathered during progress reviews, existing and working documents. The formal assessment form will indicate whether the ECT is on track to meet the Teachers' Standards consistently by the end of induction. The formal assessment form will be completed with evidence provided for each of the Teachers' Standards and the ECT will also comment. This form will be digitally signed and submitted to the Appropriate Body (via *the ECT Manager website*) by the end of the term it is due.

If at any point there is a concern that the ECT is not making satisfactory progress against the Teachers' Standards, this should be stated clearly within the progress review record or formal assessment form. The induction tutor/headteacher will clearly outline and discuss with the ECT the support that will be put in place to assist the ECT in getting back on track. The school will notify the Appropriate Body and share the support plan with them.

7. Addressing ECT Concerns

If an ECT has any concerns about the induction, mentoring and support programme, these should be raised within the school in the first instance. Where the school is not able to resolve them the ECT should raise concerns with the named Appropriate Body contact, contact details for whom will have been provided by the ECT Induction Service. ECTs will also be reminded that their professional association is another source of advice and support.

8. Review of the policy

This policy was agreed and adopted in September 2022. It was last reviewed in September 2024:

- as part of the school's development cycle by September 2025
- prior to this date should there be any changes to statutory requirements.
