

CHALLENGE #2

What is Geography?

Geography is much more than just maps...

Over time,
Geographers
have helped us to
make sense of...

...the physical
world

...the
environmental
world

...the human
world

PHYSICAL GEOGRAPHY

- Earthquakes
- Volcanoes
- Glaciers
- Weather
- Climate
- Rivers
- Floods
- Coasts
- Ice

HUMAN GEOGRAPHY

- Development
- Living space
- Resources
- Population
- Migration
- Countries
- People
- Money

ENVIRONMENTAL GEOGRAPHY

Habitats
Recycling
Protection
Pollution
Waste

“The study of Geography is about more than just memorising places on a map. It’s about understanding the complexity of our world, appreciating the diversity of cultures that exists across continents. And in the end, it’s about using all that knowledge to help bridge divides and bring people together.”

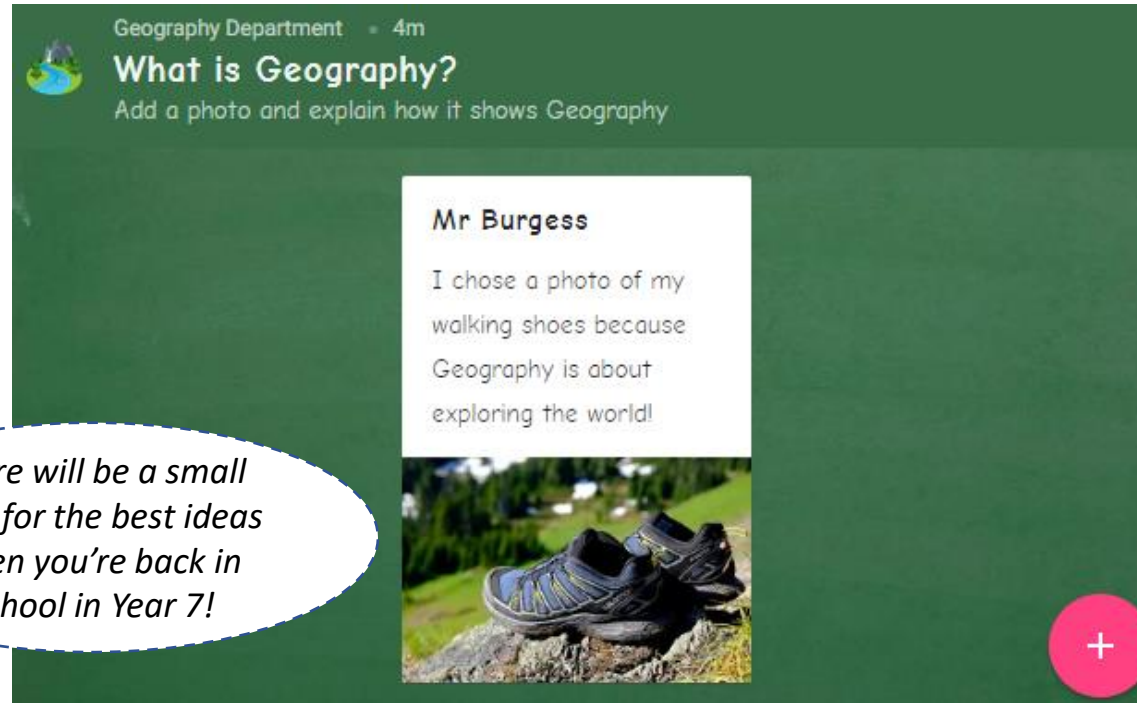

*- Barack Obama
Former President of
the United States of
America*

INSTRUCTIONS

Geography is about our **whole world**. Can you think of the best way to show what Geography is all about?

1. Find an object (or several objects) that represent Geography **OR** draw something instead.
2. Take a photo of the object(s) or drawing.
3. Go to <https://padlet.com/dburgess/whatisgeography>. Add your photo and explain how it shows Geography.
4. An example has been done for you...

There will be a small prize for the best ideas when you're back in school in Year 7!
